Keep Greenville Beautiful Believes

That each of us holds an obligation to **preserve and protect our environment**. Through our every day choices and actions, we collectively have a huge impact on our world. It is really a simple concept, but one with far **reaching effects**.

Keep Greenville Beautiful follows a practical approach that unites citizens, businesses and government to find solutions that advance our core issues of **preventing litter, reducing waste and beautifying our community**.

2008 Annual Spring Clean Up

Greenville has its own interconnected needs and challenges but with a national network of nearly 1000 **Keep America Beautiful** affiliates and participating organizations, shared education and hands on **stewardship** help to pave the way for **success** in addressing our local needs.

On The Cover—Feed The Bin School Recycling Project

The Education Committee of Keep Greenville Beautiful was instrumental in getting a pilot project started in three elementary schools for the 2007-08 school year. The project included recycling education for every 5th grade and a commingled (mixed) recycling program throughout each school.

Partners in the project were the City of Greenville, Pitt County Solid Waste and Recycling, ECU, OCS and ECVC.

A state grant was received for the 2008-09 school year, to expand the program into 6 additional schools.

The goal for this project is to have the Feed The Bin recycling program in every school in Pitt County.

Cleaning Up Litter in Neighborhoods

Various groups have taken on the challenge, through Keep Greenville Beautiful, of cleaning up the neighborhoods where they live and play.

In one day, St. Peter's Catholic School brought in over **5 1/2** tons of magazines and phone books. Great job!
